

HEALTH & SAFETY POLICY

AGS and its subsidiaries strive to be one of the geophysical industry's leading organizations for providing protection for the health, safety, and culture of our employees and the environments in which we operate. Plans for such are designed and managed by skilled coordinators and supported by the Board of Directors, Senior Management and all of our employees.

AGS recognizes that in today's global market, a safe and healthy work place, protection of local environment and cultures in the areas in which we operate together with quality services and products, will lead us to achieve our goals. AGS's promise to these areas is a CONTINUOUS process –

- Continuous leadership and commitment to promote a safe and secure environment for our employees, clients and the people who live in the areas of our operations.
- Continuous training for management and employees will lead to an educated and informed workforce that can act proactively, protecting these areas.
- Continuous support and monitoring of our organization, thus leading the industry by example.
- Continuous involvement of our employees in the creation and implementation of these programs to ensure total comprehension of their importance in the global marketplace.
